**DETAILED ACTION**

1. The indicated allowability of claims 11-12 is withdrawn in view of the newly discovered reference(s) to Sudo et al. (US 6,204,527). Rejections based on the newly cited reference(s) follow.

***Claim Rejections - 35 USC § 112***

2. Claims 1, 2, 4 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "wherein the insulator coating the lower surface...than the insulator coating the rest of the coated conductive region" is not clear. What or where is "the insulator" with respect to a capacitor dielectric? Furthermore, "the insulator coating.." has no antecedent basis.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Sudo et al. (US 6,204,527).

Sudo '527 discloses at least one capacitor formed on an IC substrate, the at least one capacitor comprising: a first electrode 35a, for example of MOs transistor, a first capacitor dielectric region 60 having at least a portion that contacts the first electrode 35a and is buried beneath the first electrode; and a second electrode 20 buried beneath the first electrode, the second electrode being insulated from the first electrode, wherein the second electrode is electrically connected to a gate 31 of the MOS transistor.

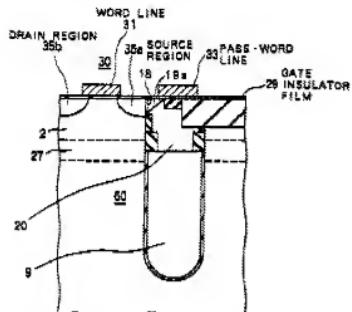

FIG. 11

4. Claims 13-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 7-10, 19-28 are allowed.

The following is an examiner's statement of reasons for allowance: see the reasons in the previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jasmine J. Clark whose telephone number is (571) 272-1726. The examiner can normally be reached on Flex.
